

# Canadian Journal of Anesthesia

## Index of Authors

Volume 46, December 1999

**Note:** Entries are reports of investigation unless otherwise indicated. Abstracts and refresher course outlines in the May *Annual Meeting Supplement* are not included in this index.

### A

Abramson AL, see Barst SM, jt. auth.  
 Abud TMV, see Barra Bisinotto FM, jt. auth.  
 Adu-Gyamfi Y, see Selim N, jt. auth.  
 Ady N, see Ezri T, jt. auth.  
 Agata H, Ichinohe T, Kaneko Y. Felypressin-induced reduction in coronary blood flow and myocardial tissue oxygen tension during anesthesia in dogs (laboratory investigation), 1070  
 Ahmed AAK, Kumagai M, Otake T, Kurata Y, Amaki Y. Sevoflurane exposure time and the neuromuscular blocking effect of vecuronium, 429  
 Akazawa S, see Ikeno S, jt. auth.  
 Al Damegh S, see Naguib M, jt. auth.  
 Alexander J, see Seear M, jt. auth.  
 Al-Ghamdi A, see Selim N, jt. auth.  
 Al-Sarli RA, see Naguib M, jt. auth.  
 Amaki Y, see Ahmed AAK, jt. auth.  
 Anderson JL, see Hill GE, jt. auth.  
 Angle P, Thompson D, Halpern S, Wilson DB. Second stage pushing correlates with headache after unintentional dural puncture in parturients, 861  
 Annila P, see Vitanen H, jt. auth.  
 Ansley DM, Sun J, Visser WA, Dolman J, Godin DV, Garnett ME, Qayumi AK. High dose propofol enhances red cell antioxidant capacity during CPB in humans, 641  
 Antognini JF, Wang XW. Isoflurane indirectly depresses middle latency auditory evoked potentials by action in the spinal cord in the goat (laboratory investigation), 692  
 Anzawa N, see Kubota T, jt. auth.  
 Aono J, see Mamiya K, jt. auth.  
 Aouad-Maroun M, see Siddik-Sayyid S, jt. auth.  
 Aouifi A, Pirion V, Bastien O, Joseph P, Blanc P, Chiari P, Diab C, Villard J, Lehot JJ. Complications digestives sévères après chirurgie cardiaque sous circulation extra-corporelle, 114  
 Aoyama K, see Takenaka I, jt. auth.  
 Archer D, see Yang T, jt. auth.  
 Arndt GA, Bushka S, Kranner PW, DeLesio ST. Wire-guided endobronchial blockade in a patient with a limited mouth opening (equipment report), 87  
 Asai T, Matsumoto H, Shingu K. Awake tracheal intubation

through the intubating laryngeal mask (brief clinical report), 182

Au CL, White SA, Grant RP. A novel intubation technique for tracheoesophageal fistula in adults (clinical report), 688  
 Aubin P, Vischoff D, Haig M, Villeneuve E, Charest J, Lallier M, Di Lorenzo M. Management of an infant with diffuse bullous pulmonary lesions using high-frequency oscillatory ventilation (clinical report), 970  
 Auden SM, see Rodriguez RA, jt. auth.  
 Austin EH III, see Rodriguez RA, jt. auth.  
 Avé A, see Durak Y, jt. auth.  
 Avery N, see Parlow JL, jt. auth.  
 Awad I, see Browne J, jt. auth.  
 Aya AGM, Mangin R, Robert C, Ferrer J-M, Eledjam J-J. Increased risk of unintentional dural puncture in night-time obstetric epidural anesthesia, 665  
 Azmudéh A, see Ries CR, jt. auth.

### B

Babin D, see Couture P, jt. auth.  
 Bailey PM, see Dob DP, jt. auth.  
 Bandi E, Weeks S, Carli F. Spinal block levels and cardiovascular changes during post-Cesarean transport, 736  
 Baraka A, Siddik S, Kawkabani N. Cisatracurium in a myasthenic patient undergoing thymectomy (clinical report), 779  
 - see Siddik-Sayyid S, jt. auth.  
 Bardwaj A, see Coleman MM, jt. auth.  
 Barra Bisinotto FM, Braz JRC, Martins RHG, Gregorio EA, Abud TMV. Tracheobronchial consequences of the use of heat and moisture exchangers in dogs (laboratory investigation), 897  
 Barst SM, Leiderman JU, Markowitz A, Rosen AM, Abramson AL, Bieckowski RS. Ondansetron with propofol reduces the incidence of emesis in children following tonsillectomy, 359  
 Bartosik L, see Chang L, jt. auth.  
 Basta M, Sloan P. Epidural hematoma following epidural catheter placement in a patient with chronic renal failure (brief report), 271  
 Bastien O, see Aouifi A, jt. auth.  
 Batra YK, see Rajeeva V, jt. auth.  
 Baxter FJ, see Kahn L, jt. auth.

Beamish T, see Milne A, jt. auth.

Beauchet A, see Fellahi J-L, jt. auth.

Bédard JM, Richardson MG, Wissler RN. General anesthesia with remifentanil for Cesarean section in a parturient with an acoustic neuroma (clinical report), 576

Belani KG, Buckley JJ, Poliac MO. Accuracy of radial artery blood pressure determination with the Vasotrac™ (equipment report), 488

Ben-David B, see Varkel V, jt. auth.

Bengtson JP, see Einarsson S, jt. auth.

Bengtsson A, see Einarsson S, jt. auth.

Benhamou D, Bouaziz H, Zerrouk N, Préaux N. Audit of ketoprofen prescribing after orthopedic and general surgery, 109

Bergeron L, Girard M, Drolez P, Grenier Y, Le Truong HH, Boucher C. Spinal procaine with and without epinephrine and its relation to transient radicular irritation, 846

Bernstein EP, see Littleford JA, jt. auth.

Bessell JR, see Mouton WG, jt. auth.

Bhardwaj D, Norris A, Wong DT. Is skin puncture beneficial prior to arterial catheter insertion?, 129

- Peng P. An uncommon mechanism of brachial plexus injury. A case report (clinical report), 173

Bhardwaj N, see Rajeeva V, jt. auth.

Bienkowski RS, see Barst SM, jt. auth.

Bissonnette B, Swan H, Ravusin P, Un V. Neuroleptanesthesia: current status (review article), 154

Blackstock D, see Donen N, jt. auth.

Blanc P, see Aouifi A, jt. auth.

Boccardo G, see Mann C, jt. auth.

Boezaart AP, de Beer JF, du Toit C, van Rooyen K. A new technique of continuous interscalene nerve block (anesthesia technique), 275

Bond DM. Pre-anesthetic assessment clinics in Ontario (occasional review), 382

Bouaziz H, see Benhamou D, jt. auth.

Boucher C, see Bergeron L, jt. auth.

Boudreault D, see Couture P, jt. auth.

Bourdarias J-P, see Fellahi J-L, jt. auth.

Boyle K, see Manninen PH, jt. auth.

Braz JRC, see Barra Bisinotto FM, jt. auth.

Breen TW, see Yang T, jt. auth.

Brimacombe J, Keller C. Comparison of the flexible and standard laryngeal mask airways, 558

- Water flow between the upper esophagus and pharynx for the LMA and COPA in fresh cadavers (brief report), 1064

- see Keller C, jt. auth.

Broadman L, see Ivani G, jt. auth.

Brockhurst NJ, see Littleford JA, jt. auth.

Brown S, see Cruickshanks GF, jt. auth.

Browne J, Awad I, Plant R, McAdoo J, Shorten G. Topical amethocaine (Ametop™) is superior to EMLA for intravenous cannulation, 1014

Bryson GL, see Self DD, jt. auth.

Buchika S, see Arndt GA, jt. auth.

Buckley JJ, see Belani KG, jt. auth.

Buggy DJ, see Molloy ME, jt. auth.

Burlacoff L, see Rapanos T, jt. auth.

Burt N, Pruner MM, Williams AR. Airway management of a child after tracheal resection (brief report), 1178

Bussières J, see Vézina D, jt. auth.

Butler R, see Porayko LD, jt. auth.

Büyükkocak S, see Durak Y, jt. auth.

Byrck RJ, Mullen JB, Murphy PM, Kay JC, Stewart TE, Edelist G. Inhaled nitric oxide does not alter pulmonary or cardiac effects of fat embolism in dogs after cemented arthroplasty (laboratory investigation), 605

**C**

Carignan S, see Couture P, jt. auth.

Carli F, see Bandi E, jt. auth.

- see Schricker T, jt. auth.

**Note:** Entries are reports of investigation unless otherwise indicated. Abstracts and refresher course outlines in the May *Annual Meeting Supplement* are not included in this index.

## A

### Acid base

- acute respiratory alkalosis associated with low minute ventilation in a patient with severe hypothyroidism: clinical anesthesia file (Lee and Levine), 185

### Age factors

- adverse events in ambulatory surgery. A comparison between elderly and younger patients (Chung *et al*), 309
- response to surgical stress in elderly patients and Alzheimer's disease (Kudoh *et al*), 247
- use of cuffed oropharyngeal *vs* laryngeal mask airway in elderly patients (Ezri *et al*), 363
- volume kinetics of Ringer solution after surgery for hip fracture (Svensén *et al*), 133

### Airway

- *see also Anesthesia, Trachea, surgery of; Extubation, tracheal; Intubation, tracheal*

### Anatomy

- bronchial anatomy and single-lung ventilation in the pig: brief report (Mouton *et al*), 701
- esophageal and tracheal distortion by the Esophageal-Tracheal Combitube - a cadaver study: laboratory investigation (Vézina *et al*), 393
- predictive models for difficult laryngoscopy and intubation. A clinical, radiologic and three-dimensional computer imaging study (Naguib *et al*), 748

### Assessment

- assessment of laryngeal view: percentage of glottic opening score *vs* Cormack and Lehane grading: brief report (Ochroch *et al*), 987

### Difficult

- airway management: contents of a difficult intubation cart: equipment report (McGuire and Wong), 190
- anesthesia for Freeman-Sheldon syndrome using a laryngeal mask airway: clinical report (Cruickshanks *et al*), 783
- fiberoptic assessment of laryngeal aperture in patients with difficult laryngoscopy (Takenaka *et al*), 226

# Index of Subjects

Volume 46, December 1999

- intubating laryngeal mask airway in failed fiberoptic intubation: brief clinical report (Watson *et al*), 376

- intubation via LMA in pediatric patients with difficult airways: brief clinical report (Selim *et al*), 891

- tracheal intubation using a Bullard laryngoscope for patients with a simulated difficult airway (MacQuarrie *et al*), 760

- wire-guided endobronchial blockade in a patient with a limited mouth opening: equipment report (Arndt *et al*), 87

### Management

- airway management: contents of a difficult intubation cart: equipment report (McGuire and Wong), 190

- airway management of a child after tracheal resection: brief report (Burt *et al*), 1178

- anesthesia for Freeman-Sheldon syndrome using a laryngeal mask airway: clinical report (Cruickshanks *et al*), 783

- intubation via LMA in pediatric patients with difficult airways: brief clinical report (Selim *et al*), 891

### Obstruction

- airway obstruction due to late-onset angioneurotic edema from angiotensin-converting enzyme inhibition: clinical report (Mchaourab *et al*), 975

- complete upper airway obstruction during awake fiberoptic intubation of patients with unstable cervical spine fractures: brief clinical report (McGuire and El-Beheiry), 176

- Pott's disease with unstable cervical spine, retropharyngeal cold abscess and progressive airway obstruction: clinical report (Pollard and El-Beheiry), 772

- tracheal resection and reconstruction: review article (Pinsonneault *et al*), 439

- unilateral negative pressure pulmonary edema during anesthesia with a laryngeal mask airway: clinical report (Sullivan), 1053

**Alfentanil, *see under Analgesics***

### Allergies

- latex anaphylaxis causing heart block: role of ranitidine: clinical report (Patterson and Milne), 776

**Alzheimer's disease, see under Complications**

**Ambulatory surgery, see Anesthesia, Ambulatory surgery**

**Amethocaine, see under Anesthetics, local**

**Amrinone, see under Pharmacology**

**Analgesia**

**Epidural**

- anesthetic management of living liver donors: brief report (Choudhry *et al*), 788
- comparison of thoracic and lumbar epidural techniques for post-thoracoabdominal esophagectomy analgesia (Kahn *et al*), 415
- epidural tramadol for postoperative pain after Cesarean section (Siddik-Sayid *et al*), 731
- motor blockade is reduced with ropivacaine 0.125% for parturient-controlled epidural analgesia during labour (Sia *et al*), 1019

**Near infrared laser**

- rheumatoid arthritis-affected temporomandibular joint pain analgesia by linear polarized near infrared irradiation: clinical report (Yokoyama and Oku), 683

**Patient-controlled**

- addition of femoral 3-in-1 blockade to intra-articular ropivacaine 0.2% does not reduce analgesic requirements following arthroscopic knee surgery (Schwarz *et al*), 741
- comparison of patient-controlled analgesia (PCA) with tramadol or morphine (Pang *et al*), 1030
- intraoperative high dose fentanyl induces postoperative fentanyl tolerance (Chia *et al*), 872
- motor blockade is reduced with ropivacaine 0.125% for parturient-controlled epidural analgesia during labour (Sia *et al*), 1019
- rectal indomethacin reduces postoperative pain and morphine use after cardiac surgery (Rapanos *et al*), 725

**Postoperative**

- adding low dose meperidine to spinal lidocaine prolongs postoperative analgesia (Murto *et al*), 327
- addition of femoral 3-in-1 blockade to intra-articular ropivacaine 0.2% does not reduce analgesic requirements following arthroscopic knee surgery (Schwarz *et al*), 741
- audit of ketoprofen prescribing after orthopedic and general surgery (Benhamou *et al*), 109
- comparison of patient-controlled analgesia (PCA) with tramadol or morphine (Pang *et al*), 1030
- comparison of thoracic and lumbar epidural techniques for post-thoracoabdominal esophagecto-

my analgesia (Kahn *et al*), 415

- epidural block with mepivacaine before surgery reduces long-term post-thoracotomy pain (Obata *et al*), 1127
- epidural tramadol for postoperative pain after Cesarean section (Siddik-Sayid *et al*), 731
- intraarticular fentanyl compared with morphine for pain relief following arthroscopic knee surgery (Varkel *et al*), 867
- intra-articular tenoxicam improves postoperative analgesia in knee arthroscopy (Colbert *et al*), 653
- intraoperative high dose fentanyl induces postoperative fentanyl tolerance (Chia *et al*), 872
- preincisional dextromethorphan decreases postoperative pain and opioid requirement after modified radical mastectomy (Wong *et al*), 1122
- ropivacaine *vs* bupivacaine in major surgery in infants: brief report (Ivani *et al*), 467

**Pre-emptive**

- epidural block with mepivacaine before surgery reduces long-term post-thoracotomy pain (Obata *et al*), 1127
- preincisional dextromethorphan decreases postoperative pain and opioid requirement after modified radical mastectomy (Wong *et al*), 1122
- rectal indomethacin reduces postoperative pain and morphine use after cardiac surgery (Rapanos *et al*), 725

**Regional**

- impact of a regional anesthesia analgesia program for outpatient foot surgery (Collins *et al*), 840

**Analgesics**

**Alfentanil**

- neuroleptanesthesia - current status: review article (Bissonnette *et al*), 154

**Dextromethorphan**

- preincisional dextromethorphan decreases postoperative pain and opioid requirement after modified radical mastectomy (Wong *et al*), 1122

**Fentanyl**

- intraarticular fentanyl compared with morphine for pain relief following arthroscopic knee surgery (Varkel *et al*), 867
- intraoperative high dose fentanyl induces postoperative fentanyl tolerance (Chia *et al*), 872
- neuroleptanesthesia - current status: review article (Bissonnette *et al*), 154

**Indomethacin**

- rectal indomethacin reduces postoperative pain and morphine use after cardiac surgery (Rapanos *et al*), 725

**Ketoprofen**

- audit of ketoprofen prescribing after orthopedic and general surgery (Benhamou *et al*), 109

**Ketorolac**

- femoral nerve block and ketorolac in patients undergoing anterior cruciate ligament reconstruction (Peng *et al*), 919

**Meperidine**

- adding low dose meperidine to spinal lidocaine prolongs postoperative analgesia (Murto *et al*), 327
- preincisional dextromethorphan decreases postoperative pain and opioid requirement after modified radical mastectomy (Wong *et al*), 1122

**Morphine**

- addition of femoral 3-in-1 blockade to intraarticular ropivacaine 0.2% does not reduce analgesic requirements following arthroscopic knee surgery (Schwarz *et al*), 741
- comparison of 0.25 mg and 0.1 mg intrathecal morphine for analgesia after Cesarean section (Yang *et al*), 856
- comparison of patient-controlled analgesia (PCA) with tramadol or morphine (Pang *et al*), 1030
- delayed postoperative gastric emptying following intrathecal morphine and intrathecal bupivacaine (Lydon *et al*), 544
- femoral nerve block and ketorolac in patients undergoing anterior cruciate ligament reconstruction (Peng *et al*), 919
- intraarticular fentanyl compared with morphine for pain relief following arthroscopic knee surgery (Varkel *et al*), 867
- rectal indomethacin reduces postoperative pain and morphine use after cardiac surgery (Rapanos *et al*), 725

**NSAIDs**

- audit of ketoprofen prescribing after orthopedic and general surgery (Benhamou *et al*), 109
- intra-articular tenoxicam improves postoperative analgesia in knee arthroscopy (Colbert *et al*), 653

**Opioids**

- addition of opioids alters the density and spread of intrathecal local anesthetics? An *in vitro* study: laboratory report (Parlow *et al*), 66

- general anesthesia with remifentanil for Cesarean section in a parturient with an acoustic neuroma: clinical report (Bédard *et al*), 576

- preincisional dextromethorphan decreases postoperative pain and opioid requirement after modified radical mastectomy (Wong *et al*), 1122

- rectal indomethacin reduces postoperative pain and morphine use after cardiac surgery (Rapanos *et al*), 725

- total intravenous anesthesia with remifentanil, propofol and cisatracurium in end-stage renal failure: brief report (Dahaba *et al*), 696

**Remifentanil**

- general anesthesia with remifentanil for Cesarean section in a parturient with an acoustic neuroma: clinical report (Bédard *et al*), 576
- neuroleptanesthesia - current status: review article (Bissonnette *et al*), 154
- total intravenous anesthesia with remifentanil, propofol and cisatracurium in end-stage renal failure: brief report (Dahaba *et al*), 696

**Sufentanil**

- neuroleptanesthesia - current status: review article (Bissonnette *et al*), 154

**Tenoxicam**

- intra-articular tenoxicam improves postoperative analgesia in knee arthroscopy (Colbert *et al*), 653

**Tramadol**

- comparison of patient-controlled analgesia (PCA) with tramadol or morphine (Pang *et al*), 1030
- control of shivering under regional anesthesia in obstetric patients with tramadol (Chan *et al*), 253
- epidural tramadol for postoperative pain after Cesarean section (Siddik-Sayid *et al*), 731

**Anaphylaxis**

- latex anaphylaxis causing heart block: role of ranitidine: clinical report (Patterson and Milne), 776

**Anatomy****Airway**

- bronchial anatomy and single-lung ventilation in the pig: brief report (Mouton *et al*), 701
- esophageal and tracheal distortion by the Esophageal-Tracheal Combitube - a cadaver study: laboratory investigation (Vézina *et al*), 393
- predictive models for difficult laryngoscopy and intubation. A clinical, radiologic and three-dimensional computer imaging study (Naguib *et al*), 748

**Anatomy (continued)****Epidural space**

- epidural structure changes during deep breathing (Igarashi *et al*), 850

**Anemia, see under Blood****Anesthesia**

- *see also Costs, Pharmacoeconomics; Complications*

**Ambulatory surgery**

- adverse events in ambulatory surgery. A comparison between elderly and younger patients (Chung *et al*), 309
- can nurses screen all outpatients? Performance of a nurse based model (Vaghadia and Fowler), 1117
- cisapride does not alter gastric volume or pH in patients undergoing ambulatory surgery: brief report (Lydon *et al*), 1181
- comparison of ondansetron with ondansetron and dexamethasone in prevention of PONV in diagnostic laparoscopy (Rajeeva *et al*), 40
- cost-effectiveness of prophylactic dolasetron or droperidol *vs* rescue therapy in the prevention of PONV in ambulatory gynecologic surgery patients (Frighetto *et al*), 536
- femoral nerve block and ketorolac in patients undergoing anterior cruciate ligament reconstruction (Peng *et al*), 919
- impact of a regional anesthesia analgesia program for outpatient foot surgery (Collins *et al*), 840
- intra-articular tenoxicam improves postoperative analgesia in knee arthroscopy (Colbert *et al*), 653
- post discharge nausea and vomiting after ambulatory laparoscopy is not reduced by promethazine prophylaxis (Parlow *et al*), 719

**Cardiac surgery**

- *see also Ischemia, Myocardial*
- catheter entrapment by atrial suture during minimally invasive port-access cardiac surgery: brief report (Deneu *et al*), 983
- chronic angiotensin converting enzyme inhibition does not influence renal hemodynamic and function during cardiac surgery (Licker *et al*), 626
- complications digestives sévères après chirurgie cardiaque sous circulation extracorporelle (Aouifi *et al*), 114
- detection of retroperitoneal hemorrhage by transesophageal echocardiography during cardiac surgery: clinical report (Yamaura *et al*), 169

- etiology of preoperative anemia in patients undergoing scheduled cardiac surgery: brief report (Karski *et al*), 979

- rectal indomethacin reduces postoperative pain and morphine use after cardiac surgery (Rapanos *et al*), 725

- treatment of heparin resistance with Antithrombin III in cardiac surgery: clinical report (Kanbak), 581

**Cardiopulmonary bypass**

- auditory brainstem evoked responses and temperature monitoring during pediatric cardiopulmonary bypass (Rodriguez *et al*), 832
- high dose propofol enhances red cell antioxidant capacity during CPB in humans (Ansley *et al*), 641
- profound hypoxemia during treatment of low cardiac output after cardiopulmonary bypass: clinical report (Dennehy *et al*), 56

**Coronary artery bypass**

- anesthetic modulation of myocardial ischemia and reperfusion injury in pigs: comparison between halothane and sevoflurane: laboratory report (Conradie *et al*), 71
- comparison of the hemodynamic effects of sevoflurane anesthesia induction and maintenance *vs* TIVA in CABG surgery (Gravel *et al*), 240
- complications digestives sévères après chirurgie cardiaque sous circulation extracorporelle (Aouifi *et al*), 114
- intraoperative detection of segmental wall motion abnormalities with transesophageal echocardiography (Couture *et al*), 827

**Dental surgery**

- felypressin-induced reduction in coronary blood flow and myocardial tissue oxygen tension during anesthesia in dogs: laboratory investigation (Agata *et al*), 1070

**Electroconvulsive therapy**

- low dose mivacurium is less effective than succinylcholine in electroconvulsive therapy: brief report (Cheam *et al*), 49

**Geriatric patients**

- adverse events in ambulatory surgery. A comparison between elderly and younger patients (Chung *et al*), 309
- use of cuffed oropharyngeal *vs* laryngeal mask airway in elderly patients (Ezri *et al*), 363
- volume kinetics of Ringer solution after surgery for hip fracture (Svensén *et al*), 133

**Gynecological surgery**

- cost-effectiveness of prophylactic dolasetron or droperidol *vs* rescue therapy in the prevention of

- PONV in ambulatory gynecologic surgery patients (Frighetto *et al*), 536
- gas embolism during hysteroscopy: brief clinical report (Nishiyama and Hanaoka), 379
- intraoperative high dose fentanyl induces postoperative fentanyl tolerance (Chia *et al*), 872
- time of peritoneal cavity exposure influences postoperative glucose production (Schricker *et al*), 352

#### *Laparoscopic surgery*

- comparison of ondansetron with ondansetron and dexamethasone in prevention of PONV in diagnostic laparoscopy (Rajeeva *et al*), 40
- monitorage hémodynamique par Doppler oesophagien lors de la cholécystectomie par coelioscopie (Mann *et al*), 15
- post discharge nausea and vomiting after ambulatory laparoscopy is not reduced by promethazine prophylaxis (Parlow *et al*), 719
- ramosetron vs granisetron for the prevention of postoperative nausea and vomiting after laparoscopic cholecystectomy: brief report (Fujii *et al*), 991

#### *Laryngoscopy*

- fibreoptic assessment of laryngeal aperture in patients with difficult laryngoscopy (Takenaka *et al*), 226
- predictive models for difficult laryngoscopy and intubation. A clinical, radiologic and three-dimensional computer imaging study (Naguib *et al*), 748
- thyroplasty under general anesthesia using a laryngeal mask airway and fibreoptic bronchoscope: clinical report (Grundler and Stacey), 460
- tracheal intubation using a Bullard laryngoscope for patients with a simulated difficult airway (MacQuarrie *et al*), 760

#### *Mastectomy*

- preincisional dextromethorphan decreases postoperative pain and opioid requirement after modified radical mastectomy (Wong *et al*), 1122

#### *Mechanisms of action*

- inhalational and local anesthetics reduce tactile and thermal responses in *mimosa pudica*: laboratory investigation (Milne and Beamish), 287
- isoflurane indirectly depresses middle latency auditory evoked potentials by action in the spinal cord in the goat: laboratory investigation (Antognini and Wang), 692

#### *Monitored anesthesia care*

- clinical assessment of target-controlled infusion of propofol during monitored anesthesia care (Casati *et al*), 235

#### *Neuroleptic*

- neuroleptanesthesia - current status: review article (Bissonnette *et al*), 154

#### *Neurosurgery*

- early postoperative complications following neurosurgical procedures (Manninen *et al*), 7
- transient nerve damage following intubation for trans-sphenoidal hypophysectomy: clinical report (Evers *et al*), 1143
- uncommon mechanism of brachial plexus injury. A case report: clinical report (Bhardwaj and Peng), 173

#### *Obstetrical surgery*

- amniotic fluid embolism and isolated disseminated intravascular coagulation: clinical report (Davies), 456
- increased risk of unintentional dural puncture in night-time obstetric epidural anesthesia (Aya *et al*), 665
- obstetrical anesthesia for a parturient with a ventriculoperitoneal shunt and third ventriculostomy: obstetric forum (Littleford *et al*), 1057
- second stage pushing correlates with headache after unintentional dural puncture in parturients (Angle *et al*), 861

#### *Cesarean section*

- anesthesia for Cesarean section in two patients with brain tumours: clinical report (Chang *et al*), 61
- Cesarean section in a mother with uncorrected congenital coronary to pulmonary artery fistula: clinical report (Tay *et al*), 368
- comparison of 0.25 mg and 0.1 mg intrathecal morphine for analgesia after Cesarean section (Yang *et al*), 856
- control of shivering under regional anesthesia in obstetric patients with tramadol (Chan *et al*), 253
- epidural tramadol for postoperative pain after Cesarean section (Siddik-Sayyid *et al*), 731
- general anesthesia with remifentanil for Cesarean section in a parturient with an acoustic neuroma: clinical report (Bédard *et al*), 576
- idiopathic dilated cardiomyopathy presenting in pregnancy: clinical report (Chan and Ngan Kee), 1146
- preoperative dextrose does not affect spinal-induced hypotension in elective Cesarean section (Wilson *et al*), 1024
- spinal block levels and cardiovascular changes during post-Cesarean transport (Bandi *et al*), 736

**Anesthesia (continued)****Cesarean section (continued)**

- Strümpell's disease in a patient presenting for Cesarean section: clinical report (McTiernan and Haagenvik), 679
- ST-segment depression and myocardial contractility during cesarean section under spinal anesthesia: brief report (Roy and Ramanathan), 52

**Ophthalmic surgery**

- oral granisetron for strabismus surgery in children (Munro *et al*), 45

**Orthopedic surgery**

- comparison of patient-controlled analgesia (PCA) with tramadol or morphine (Pang *et al*), 1030
- impact of a regional anesthesia analgesia program for outpatient foot surgery (Collins *et al*), 840
- inhaled nitric oxide does not alter pulmonary or cardiac effects of fat embolism in dogs after cemented arthroplasty: laboratory investigation (Byrck *et al*), 605
- multicentre trial of ropivacaine  $7.5 \text{ mg} \cdot \text{ml}^{-1}$  vs bupivacaine  $5 \text{ mg} \cdot \text{ml}^{-1}$  for supra clavicular brachial plexus anesthesia (Vaghadia *et al*), 946

**Arthroscopic**

- addition of femoral 3-in-1 blockade to intra-articular ropivacaine 0.2% does not reduce analgesic requirements following arthroscopic knee surgery (Schwarz *et al*), 741
- femoral nerve block and ketorolac in patients undergoing anterior cruciate ligament reconstruction (Peng *et al*), 919
- intraarticular fentanyl compared with morphine for pain relief following arthroscopic knee surgery (Varkel *et al*), 867
- intra-articular tenoxicam improves postoperative analgesia in knee arthroscopy (Colbert *et al*), 653
- tourniquet inflation during arthroscopic knee ligament surgery does not increase postoperative pain (Hooper *et al*), 925

**Spinal**

- complete upper airway obstruction during awake fiberoptic intubation of patients with unstable cervical spine fractures: brief clinical report (McGuire and El-Beheiry), 176

**Otolaryngeal surgery***- see also Anesthesia, Trachea, surgery on*

- efficacy and safety of the laryngeal mask airway vs Guedel airway following tracheal extubation: brief clinical report (Dob *et al*), 179
- ondansetron with propofol reduces the incidence of emesis in children following tonsillectomy (Barst *et al*), 359

- thyroplasty under general anesthesia using a laryngeal mask airway and fiberoptic bronchoscope: clinical report (Grundler and Stacey), 460

**Pediatric surgery**

- acute lung injury after tracheal instillation of acidified soya-based or Enfalac® or human breast milk in rabbits: laboratory investigation (Chin *et al*), 282
- airway management of a child after tracheal resection: brief report (Burt *et al*), 1178
- auditory brainstem evoked responses and temperature monitoring during pediatric cardiopulmonary bypass (Rodriguez *et al*), 832
- immune response in infants undergoing application of cast: comparison of halothane and balanced anesthesia (Mattila-Vuori *et al*), 1036
- midazolam premedication delays recovery from propofol-induced sevoflurane anesthesia in children 1-3 yr (Viitanen *et al*), 766
- ondansetron with propofol reduces the incidence of emesis in children following tonsillectomy (Barst *et al*), 359
- oral granisetron for strabismus surgery in children (Munro *et al*), 45
- rhabdomyolysis in association with Duchenne's muscular dystrophy: clinical report (Obata *et al*), 564
- ropivacaine vs bupivacaine in major surgery in infants: brief report (Ivani *et al*), 467
- sevoflurane-maintained anesthesia induced with propofol or sevoflurane in small children: induction and recovery characteristics (Viitanen *et al*), 21
- thoracic epidural analgesia via the caudal approach using nerve stimulation in an infant with CATCH22: clinical report (Tsui *et al*), 1138

**Premedication**

- midazolam premedication delays recovery from propofol-induced sevoflurane anesthesia in children 1-3 yr (Viitanen *et al*), 766
- oral clonidine premedication reduces induction dose and prolongs awakening time from propofol nitrous oxide anesthesia: brief clinical report (Goyagi *et al*), 894

**Preoperative assessment**

- can nurses screen all outpatients? Performance of a nurse based model (Vaghadia and Fowler), 1117
- pre-anesthetic assessment clinics in Ontario: occasional review (Bond), 382

**Thoracic surgery**

- airway management: contents of a difficult intubation cart: equipment report (McGuire and Wong), 190

- anesthetic management of living liver donors: brief report (Choudhry *et al*), 788
- cisatracurium in a myasthenic patient undergoing thymectomy: clinical report (Baraka *et al*), 779
- comparison of thoracic and lumbar epidural techniques for post-thoracoabdominal esophagectomy analgesia (Kahn *et al*), 415
- double lumen tube placement with the Bullard laryngoscope (Shulman and Connelly), 232
- epidural block with mepivacaine before surgery reduces long-term post-thoracotomy pain (Obata *et al*), 1127
- management of an infant with diffuse bullous pulmonary lesions using high-frequency oscillatory ventilation: clinical report (Aubin *et al*), 970
- wire-guided endobronchial blockade in a patient with a limited mouth opening: equipment report (Arndt *et al*), 87

#### *Trachea, surgery on*

- airway management of a child after tracheal resection: brief report (Burt *et al*), 1178
- anesthesia for insertion of a Dumon stent in a patient with a large tracheo-esophageal fistula: clinical report (Inada *et al*), 372
- novel intubation technique for tracheo-esophageal fistula in adults: clinical report (Au *et al*), 688
- tracheal resection and reconstruction: review article (Pinsonneault *et al*), 439

#### *Transplantation*

- anesthetic management of living liver donors: brief report (Choudhry *et al*), 788
- combined lung and liver transplantation in a girl with cystic fibrosis: clinical report (Zimmerman *et al*), 571

#### *Vascular surgery*

- intraoperative rupture of an abdominal aortic aneurysm during an endovascular stent-graft procedure: clinical report (Moskowitz *et al*), 887
- risk factors for post-carotid endarterectomy hematoma formation (Self *et al*), 635

#### *Anesthesiology*

- audit of ketoprofen prescribing after orthopedic and general surgery (Benhamou *et al*), 109
- Canadian Anesthesia Physician Resources: 1996 and beyond: survey report (Donen *et al*), 962
- communication skills for anesthesiologists: medical opinion (Smith and Shelly), 1082
- history of Canadian anesthesia (Moffitt), 1191

#### *Anesthetic techniques*

##### *Baricity/density of anesthetics*

- addition of opioids alters the density and spread of intrathecal local anesthetics? An *in vitro* study:

- laboratory report (Parlow *et al*), 66

#### *Continuous*

- new technique of continuous interscalene nerve block: anesthesia technique (Boezaart *et al*), 275

#### *Epidural*

- airway management of a child after tracheal resection: brief report (Burt *et al*), 1178
- anesthetic management of living liver donors: brief report (Choudhry *et al*), 788
- comparison of thoracic and lumbar epidural techniques for post-thoracoabdominal esophagectomy analgesia (Kahn *et al*), 415
- covering the head and face maintains intraoperative core temperature (Kamitani *et al*), 649
- detection of subarachnoid and intravascular epidural catheter placement: clinical report (Tsui *et al*), 675
- epidural hematoma following epidural catheter placement in a patient with chronic renal failure: brief report (Basta and Sloan), 271
- epidural structure changes during deep breathing (Igarashi *et al*), 850
- epidural tramadol for postoperative pain after Cesarean section (Siddik-Sayyid *et al*), 731
- motor blockade is reduced with ropivacaine 0.125% for parturient-controlled epidural analgesia during labour (Sia *et al*), 1019
- reduced efficacy of simulated epidural test doses in sevoflurane-anesthetized adults (Takahashi and Tanaka), 433
- ropivacaine *vs* bupivacaine in major surgery in infants: brief report (Ivani *et al*), 467
- saline - anesthetic interval and the spread of epidural anesthesia (Okutomi and Hoka), 935
- saline volume and local anesthetic concentration modify the spread of epidural anesthesia (Okutomi *et al*), 930
- Strümpell's disease in a patient presenting for Cesarean section: clinical report (McTiernan and Haagenvik), 679
- thoracic epidural analgesia via the caudal approach using nerve stimulation in an infant with CATCH22: clinical report (Tsui *et al*), 1138

#### *Blood patch*

- epidural blood patch. Resolving the controversies: review article (Duffy and Crosby), 878

#### *Dural puncture*

- efficacy of three test doses to detect epidural catheter misplacement (Poblete *et al*), 34
- epidural blood patch. Resolving the controversies: review article (Duffy and Crosby), 878

### Anesthetic techniques (continued)

#### Dural puncture (continued)

- increased risk of unintentional dural puncture in night-time obstetric epidural anesthesia (Aya *et al*), 665
- second stage pushing correlates with headache after unintentional dural puncture in parturients (Angle *et al*), 861

#### General

- airway management: contents of a difficult intubation cart: equipment report (McGuire and Wong), 190
- anesthetic management of living liver donors: brief report (Choudhry *et al*), 788
- combined lung and liver transplantation in a girl with cystic fibrosis: clinical report (Zimmerman *et al*), 571
- covering the head and face maintains intraoperative core temperature (Kamitani *et al*), 649
- femoral nerve block and ketorolac in patients undergoing anterior cruciate ligament reconstruction (Peng *et al*), 919
- thyroplasty under general anesthesia using a laryngeal mask airway and fibreoptic bronchoscope: clinical report (Grundler and Stacey), 460
- uncommon mechanism of brachial plexus injury. A case report: clinical report (Bhardwaj and Peng), 173

#### Infusion

- clinical assessment of target-controlled infusion of propofol during monitored anesthesia care (Casati *et al*), 235
- target controlled infusion of ketamine as analgesia for TIVA with propofol (Gray *et al*), 957

#### Intravenous

- non-alkalinized and alkalinized 2-chloroprocaine *vs* lidocaine for intravenous regional anesthesia during outpatient hand surgery (Lavin *et al*), 939

#### Laryngoscopy

- fibreoptic assessment of laryngeal aperture in patients with difficult laryngoscopy (Takenaka *et al*), 226
- predictive models for difficult laryngoscopy and intubation. A clinical, radiologic and three-dimensional computer imaging study (Naguib *et al*), 748
- thyroplasty under general anesthesia using a laryngeal mask airway and fibreoptic bronchoscope: clinical report (Grundler and Stacey), 460
- tracheal intubation using a Bullard laryngoscope for patients with a simulated difficult airway (MacQuarrie *et al*), 760

#### Low flow/high flow

- tracheobronchial consequences of the use of heat and moisture exchangers in dogs: laboratory investigation (Barra Bisinotto *et al*), 897

#### Neuroleptic

- neuroleptanesthesia - current status: review article (Bissonnette *et al*), 154

#### Regional

- control of shivering under regional anesthesia in obstetric patients with tramadol (Chan *et al*), 253
- detection of subarachnoid and intravascular epidural catheter placement: clinical report (Tsui *et al*), 675
- epidural tramadol for postoperative pain after Cesarean section (Siddik-Sayyid *et al*), 731
- non-alkalinized and alkalinized 2-chloroprocaine *vs* lidocaine for intravenous regional anesthesia during outpatient hand surgery (Lavin *et al*), 939
- preoperative dextrose does not affect spinal-induced hypotension in elective Cesarean section (Wilson *et al*), 1024
- risk factors for post-carotid endarterectomy hematoma formation (Selb *et al*), 635
- ropivacaine *vs* bupivacaine in major surgery in infants: brief report (Ivani *et al*), 467

#### Brachial plexus

- low dose axillary block by targeted injections of the terminal nerves (Koscielniak-Nielsen *et al*), 658
- multicentre trial of ropivacaine  $7.5 \text{ mg} \cdot \text{ml}^{-1}$  *vs* bupivacaine  $5 \text{ mg} \cdot \text{ml}^{-1}$  for supra clavicular brachial plexus anesthesia (Vaghadia *et al*), 946
- new technique of continuous interscalene nerve block: anesthesia technique (Boezaart *et al*), 275

#### Femoral

- addition of femoral 3-in-1 blockade to intra-articular ropivacaine 0.2% does not reduce analgesic requirements following arthroscopic knee surgery (Schwarz *et al*), 741
- femoral nerve block and ketorolac in patients undergoing anterior cruciate ligament reconstruction (Peng *et al*), 919

#### Sciatic nerve block

- impact of a regional anesthesia analgesia program for outpatient foot surgery (Collins *et al*), 840

#### Topical

- topical amethocaine (Ametop<sup>TM</sup>) is superior to EMLA for intravenous cannulation (Browne *et al*), 1014

#### Spinal

- adding low dose meperidine to spinal lidocaine prolongs postoperative analgesia (Murto *et al*), 327

- addition of opioids alters the density and spread of intrathecal local anesthetics? An *in vitro* study: laboratory report (Parlow *et al*), 66
- back pain and collapse associated with receding subarachnoid blockade: clinical report (Coleman *et al*), 464
- delayed postoperative gastric emptying following intrathecal morphine and intrathecal bupivacaine (Lydon *et al*), 544
- efficacy of three test doses to detect epidural catheter misplacement (Poblete *et al*), 34
- preoperative dextrose does not affect spinal-induced hypotension in elective Cesarean section (Wilson *et al*), 1024
- spinal block levels and cardiovascular changes during post-Cesarean transport (Bandi *et al*), 736
- spinal procaine with and without epinephrine and its relation to transient radicular irritation (Bergeron *et al*), 846

#### **Target-controlled**

- clinical assessment of target-controlled infusion of propofol during monitored anesthesia care (Casati *et al*), 235
- target controlled infusion of ketamine as analgesia for TIVA with propofol (Gray *et al*), 957

#### **Test doses**

- efficacy of three test doses to detect epidural catheter misplacement (Poblete *et al*), 34
- reduced efficacy of simulated epidural test doses in sevoflurane-anesthetized adults (Takahashi and Tanaka), 433

#### **Anesthetics, gases**

- tracheobronchial consequences of the use of heat and moisture exchangers in dogs: laboratory investigation (Barra Bisinotto *et al*), 897

#### **Nitrous oxide**

- decreased respiratory depression during emergence from anesthesia with sevoflurane/N<sub>2</sub>O than with sevoflurane alone (Einarsson *et al*), 335
- laryngo-pharyngeal complaints after use of the laryngeal mask airway (Figueroedo *et al*), 220
- rhabdomyolysis in association with Duchenne's muscular dystrophy: clinical report (Obata *et al*), 564

#### **Anesthetics, intravenous**

##### **Etomidate**

- propofol, but not etomidate, reduces desflurane-mediated sympathetic activation in humans (Lopatka *et al*), 342

##### **Ketamine**

- effects of ketamine and pentobarbital on norepinephrine release from the medial prefrontal cor-

tex in rats: laboratory investigation (Kubota *et al*), 388

- ketamine inhibits agonist-induced cAMP accumulation increase in human airway smooth muscle cells: laboratory investigation (Hill *et al*), 1172

- target controlled infusion of ketamine as analgesia for TIVA with propofol (Gray *et al*), 957

#### **Midazolam**

- comparison of the hemodynamic effects of sevoflurane anesthesia induction and maintenance vs TIVA in CABG surgery (Gravel *et al*), 240

#### **Neuroleptic**

- neuroleptanesthesia - current status: review article (Bissonnette *et al*), 154

#### **Opioids**

- combined lung and liver transplantation in a girl with cystic fibrosis: clinical report (Zimmerman *et al*), 571

#### **Pentobarbital**

- effects of ketamine and pentobarbital on norepinephrine release from the medial prefrontal cortex in rats: laboratory investigation (Kubota *et al*), 388

#### **Propofol**

- clinical assessment of target-controlled infusion of propofol during monitored anesthesia care (Casati *et al*), 235
- comparison of the hemodynamic effects of sevoflurane anesthesia induction and maintenance vs TIVA in CABG surgery (Gravel *et al*), 240
- high dose propofol enhances red cell antioxidant capacity during CPB in humans (Ansley *et al*), 641
- influence of hypoxia and hyperoxia on the kinetics of propofol emulsion: laboratory investigation (Yamamoto *et al*), 1150
- laryngeal mask insertion using thiopental and low dose atracurium: a comparison with propofol (Koh *et al*), 670
- midazolam premedication delays recovery from propofol-induced sevoflurane anesthesia in children 1-3 yr (Viitanen *et al*), 766
- oral clonidine premedication reduces induction dose and prolongs awakening time from propofol nitrous oxide anesthesia: brief clinical report (Goyagi *et al*), 894
- potency and time course of mivacurium block during sevoflurane, isoflurane and intravenous anesthesia (Lowry *et al*), 29

**Anesthetics, intravenous (continued)****Propofol (continued)**

- propofol, but not etomidate, reduces desflurane-mediated sympathetic activation in humans (Lopatka *et al*), 342
- propofol does not affect the canine cardiac conduction system under autonomic blockade: laboratory report (Ikeno *et al*), 148
- propofol or sevoflurane for laryngeal mask airway insertion (Molloy *et al*), 322
- propofol prevents delayed neuronal death following transient forebrain ischemia in gerbils: laboratory investigation (Yamaguchi *et al*), 593
- rats show unimpaired learning within minutes after recovery from single bolus propofol anesthesia: laboratory investigation (Engeland *et al*), 586
- sevoflurane-maintained anesthesia induced with propofol or sevoflurane in small children: induction and recovery characteristics (Viitanen *et al*), 21
- target controlled infusion of ketamine as analgesia for TIVA with propofol (Gray *et al*), 957
- total intravenous anesthesia with remifentanil, propofol and cisatracurium in end-stage renal failure: brief report (Dahaba *et al*), 696

**Thiopental**

- laryngeal mask insertion using thiopental and low dose atracurium: a comparison with propofol (Koh *et al*), 670

**TIVA**

- comparison of the hemodynamic effects of sevoflurane anesthesia induction and maintenance *vs* TIVA in CABG surgery (Gravel *et al*), 240
- total intravenous anesthesia with remifentanil, propofol and cisatracurium in end-stage renal failure: brief report (Dahaba *et al*), 696

**Anesthetics, local****Alkalization**

- non-alkalinized and alkalinized 2-chloroprocaine *vs* lidocaine for intravenous regional anesthesia during outpatient hand surgery (Lavin *et al*), 939
- *in vitro* diffusion of lidocaine across endotracheal tube cuffs: equipment report (Huang *et al*), 82

**Amethocaine**

- topical amethocaine (Ametop™) is superior to EMLA for intravenous cannulation (Browne *et al*), 1014

**Bupivacaine**

- addition of opioids alters the density and spread of intrathecal local anesthetics? An *in vitro* study: laboratory report (Parlow *et al*), 66

- back pain and collapse associated with receding subarachnoid blockade: clinical report (Coleman *et al*), 464
- delayed postoperative gastric emptying following intrathecal morphine and intrathecal bupivacaine (Lydon *et al*), 544
- efficacy of three test doses to detect epidural catheter misplacement (Poblete *et al*), 34
- multicentre trial of ropivacaine 7.5 mg·ml<sup>-1</sup> *vs* bupivacaine 5 mg·ml<sup>-1</sup> for supra clavicular brachial plexus anesthesia (Vaghadia *et al*), 946
- new technique of continuous interscalene nerve block: anesthesia technique (Boezaart *et al*), 275
- ropivacaine *vs* bupivacaine in major surgery in infants: brief report (Ivani *et al*), 467

**Felypressin addition**

- felypressin-induced reduction in coronary blood flow and myocardial tissue oxygen tension during anesthesia in dogs: laboratory investigation (Agata *et al*), 1070

**Lidocaine**

- adding low dose meperidine to spinal lidocaine prolongs postoperative analgesia (Murto *et al*), 327
- addition of opioids alters the density and spread of intrathecal local anesthetics? An *in vitro* study: laboratory report (Parlow *et al*), 66
- anesthesia of the airway by aspiration of lidocaine (Chung *et al*), 215
- efficacy of three test doses to detect epidural catheter misplacement (Poblete *et al*), 34
- inhalational and local anesthetics reduce tactile and thermal responses in *mimosa pudica*: laboratory investigation (Milne and Beamish), 287
- intra-axonal continuous measurement of lidocaine concentration and pH in squid giant axon: laboratory investigation (Sano *et al*), 1156
- non-alkalinized and alkalinized 2-chloroprocaine *vs* lidocaine for intravenous regional anesthesia during outpatient hand surgery (Lavin *et al*), 939
- *in vitro* diffusion of lidocaine across endotracheal tube cuffs: equipment report (Huang *et al*), 82

**Mepivacaine**

- epidural block with mepivacaine before surgery reduces long-term post-thoracotomy pain (Obata *et al*), 1127
- low dose axillary block by targeted injections of the terminal nerves (Koscielniak-Nielsen *et al*), 658
- saline - anesthetic interval and the spread of epidural anesthesia (Okutomi and Hoka), 935
- saline volume and local anesthetic concentration modify the spread of epidural anesthesia (Okutomi *et al*), 930

**Prilocaine**

- prilocaine induces apoptosis in osteoblastic cells: laboratory report (Nakamura *et al*), 476

**Procaine**

- spinal procaine with and without epinephrine and its relation to transient radicular irritation (Bergeron *et al*), 846

**Ropivacaine**

- addition of femoral 3-in-1 blockade to intra-articular ropivacaine 0.2% does not reduce analgesic requirements following arthroscopic knee surgery (Schwarz *et al*), 741
- motor blockade is reduced with ropivacaine 0.125% for parturient-controlled epidural analgesia during labour (Sia *et al*), 1019
- multicentre trial of ropivacaine 7.5 mg·ml<sup>-1</sup> vs bupivacaine 5 mg·ml<sup>-1</sup> for supra clavicular brachial plexus anesthesia (Vaghadia *et al*), 946
- ropivacaine vs bupivacaine in major surgery in infants: brief report (Ivani *et al*), 467

**2-chloroprocaine**

- non-alkalinized and alkalinized 2-chloroprocaine vs lidocaine for intravenous regional anesthesia during outpatient hand surgery (Lavin *et al*), 939

**Warming**

- *in vitro* diffusion of lidocaine across endotracheal tube cuffs: equipment report (Huang *et al*), 82

**Anesthetics, volatile****Desflurane**

- beneficial effects of sevoflurane and desflurane against myocardial reperfusion injury after cardioplegic arrest: laboratory investigation (Preckel *et al*), 1076
- estimation of desflurane concentration using isoflurane channel in optical infrared analyzer: equipment report (Tsui *et al*), 192
- propofol, but not etomidate, reduces desflurane-mediated sympathetic activation in humans (Lopatka *et al*), 342
- time of peritoneal cavity exposure influences postoperative glucose production (Schircker *et al*), 352

**Halothane**

- anesthetic modulation of myocardial ischemia and reperfusion injury in pigs: comparison between halothane and sevoflurane: laboratory report (Conradie *et al*), 71
- factitious halothane detection during trigger-free anesthesia in a malignant hyperthermia susceptible patient: clinical report (Hawkes), 567
- halothane decreases calcium sensitivity of rat aortic smooth muscle: laboratory investigation (Kakuyama *et al*), 1164

- hydroxyl radical formation during inhalation anesthesia in the reperfused working rat heart: laboratory report (Nakamura *et al*), 470
- immune response in infants undergoing application of cast: comparison of halothane and balanced anesthesia (Mattila-Vuori *et al*), 1036
- inhalational and local anesthetics reduce tactile and thermal responses in *mimosa pudica*: laboratory investigation (Milne and Beamish), 287
- landiolol decreases a dysrhythmogenic dose of epinephrine in dogs during halothane anesthesia: laboratory investigation (Takahashi *et al*), 599

**Isoflurane**

- combined lung and liver transplantation in a girl with cystic fibrosis: clinical report (Zimmerman *et al*), 571
- cost comparison of sevoflurane with isoflurane anesthesia in arthroscopic meniscectomy surgery (Ries *et al*), 1008
- hydroxyl radical formation during inhalation anesthesia in the reperfused working rat heart: laboratory report (Nakamura *et al*), 470
- isoflurane impairs antioxidant defence system in guinea pig kidney: laboratory investigation (Durak *et al*), 797
- isoflurane indirectly depresses middle latency auditory evoked potentials by action in the spinal cord in the goat: laboratory investigation (Antognini and Wang), 692
- potency and time course of mivacurium block during sevoflurane, isoflurane and intravenous anesthesia (Lowry *et al*), 29

**Sevoflurane**

- anesthetic modulation of myocardial ischemia and reperfusion injury in pigs: comparison between halothane and sevoflurane: laboratory report (Conradie *et al*), 71
- beneficial effects of sevoflurane and desflurane against myocardial reperfusion injury after cardioplegic arrest: laboratory investigation (Preckel *et al*), 1076
- comparison of the hemodynamic effects of sevoflurane anesthesia induction and maintenance vs TIVA in CABG surgery (Gravel *et al*), 240
- cost comparison of sevoflurane with isoflurane anesthesia in arthroscopic meniscectomy surgery (Ries *et al*), 1008
- decreased respiratory depression during emergence from anesthesia with sevoflurane/N<sub>2</sub>O than with sevoflurane alone (Einarsson *et al*), 335

**Anesthetics, volatile (continued)****Sevoflurane (continued)**

- hydroxyl radical formation during inhalation anesthesia in the reperfused working rat heart: laboratory report (Nakamura *et al*), 470
- midazolam premedication delays recovery from propofol-induced sevoflurane anesthesia in children 1-3 yr (Viitanen *et al*), 766
- potency and time course of mivacurium block during sevoflurane, isoflurane and intravenous anesthesia (Lowry *et al*), 29
- propofol or sevoflurane for laryngeal mask airway insertion (Molloy *et al*), 322
- reduced efficacy of simulated epidural test doses in sevoflurane-anesthetized adults (Takahashi and Tanaka), 433
- rhabdomyolysis in association with Duchenne's muscular dystrophy: clinical report (Obata *et al*), 564
- sevoflurane exposure time and the neuromuscular blocking effect of vecuronium (Ahmed *et al*), 429
- sevoflurane-maintained anesthesia induced with propofol or sevoflurane in small children: induction and recovery characteristics (Viitanen *et al*), 21
- transfer function analysis of the circulation in patients undergoing sevoflurane anesthesia (Fujiwara *et al*), 820

**Antagonists**

- cisatracurium in a myasthenic patient undergoing thymectomy: clinical report (Baraka *et al*), 779
- heart rate and blood pressure power spectral analysis during calcium channel blocker induced hypotension (Kimura *et al*), 1110

**Antiemetics****Dexamethasone**

- comparison of ondansetron with ondansetron and dexamethasone in prevention of PONV in diagnostic laparoscopy (Rajeeva *et al*), 40

**Dolasetron**

- cost-effectiveness of prophylactic dolasetron or droperidol *vs* rescue therapy in the prevention of PONV in ambulatory gynecologic surgery patients (Frighetto *et al*), 536

**Droperidol**

- cost-effectiveness of prophylactic dolasetron or droperidol *vs* rescue therapy in the prevention of PONV in ambulatory gynecologic surgery patients (Frighetto *et al*), 536
- post discharge nausea and vomiting after ambulatory laparoscopy is not reduced by promethazine prophylaxis (Parlow *et al*), 719

**Granisetron**

- oral granisetron for strabismus surgery in children (Munro *et al*), 45
- ramosetron *vs* granisetron for the prevention of postoperative nausea and vomiting after laparoscopic cholecystectomy: brief report (Fujii *et al*), 991

**Ondansetron**

- comparison of ondansetron with ondansetron and dexamethasone in prevention of PONV in diagnostic laparoscopy (Rajeeva *et al*), 40
- ondansetron with propofol reduces the incidence of emesis in children following tonsillectomy (Barst *et al*), 359

**Pharmacoconomics**

- cost-effectiveness of prophylactic dolasetron or droperidol *vs* rescue therapy in the prevention of PONV in ambulatory gynecologic surgery patients (Frighetto *et al*), 536

**Promethazine**

- post discharge nausea and vomiting after ambulatory laparoscopy is not reduced by promethazine prophylaxis (Parlow *et al*), 719

**Ramosetron**

- ramosetron *vs* granisetron for the prevention of postoperative nausea and vomiting after laparoscopic cholecystectomy: brief report (Fujii *et al*), 991

**Antithrombin III, see under Pharmacology****Apoptosis**

- prilocaine induces apoptosis in osteoblastic cells: laboratory report (Nakamura *et al*), 476

**Arrhythmias, see under Complications****Arthroscopy, see under Anesthesia, Orthopedic surgery****Aspiration, see under Complications****Atracurium, see under Neuromuscular relaxants****B****Blood****Anemia**

- etiology of preoperative anemia in patients undergoing scheduled cardiac surgery: brief report (Karski *et al*), 979

**Coagulation**

- amniotic fluid embolism and isolated disseminated intravascular coagulation: clinical report (Davies), 456
- treatment of heparin resistance with Antithrombin III in cardiac surgery: clinical report (Kanbak), 581

**Neutrophils**

- systemic thermal injury in anesthetized rabbits causes early pulmonary vascular injury that is not ablated by lazaroids: laboratory report (Miles *et al*), 142

**Blood flow****Carotid**

- potency and time course of mivacurium block during sevoflurane, isoflurane and intravenous anesthesia (Lowry *et al*), 29

**Cerebral**

- cerebral blood flow velocity during isovolemic hemodilution and subsequent autologous blood retransfusion (Mühlung *et al*), 550
- hyperventilation after tourniquet deflation prevents an increase in cerebral blood flow velocity (Kadoi *et al*), 259

**Coronary**

- felypressin-induced reduction in coronary blood flow and myocardial tissue oxygen tension during anesthesia in dogs: laboratory investigation (Agata *et al*), 1070

**Bradycardia, see under Heart****Brain****Blood flow velocity**

- cerebral blood flow velocity during isovolemic hemodilution and subsequent autologous blood retransfusion (Mühlung *et al*), 550

**Hippocampal CA1**

- propofol prevents delayed neuronal death following transient forebrain ischemia in gerbils: laboratory investigation (Yamaguchi *et al*), 593

**Medial prefrontal cortex**

- effects of ketamine and pentobarbital on norepinephrine release from the medial prefrontal cortex in rats: laboratory investigation (Kubota *et al*), 388

**Tumour**

- anesthesia for Cesarean section in two patients with brain tumours: clinical report (Chang *et al*), 61
- general anesthesia with remifentanil for Cesarean section in a parturient with an acoustic neuroma: clinical report (Bédard *et al*), 576

**Bupivacaine, see under Anesthetics, local****C****Calcium**

- halothane decreases calcium sensitivity of rat aortic smooth muscle: laboratory investigation (Kakuyama *et al*), 1164

**Carbon dioxide**

- decreased respiratory depression during emergence from anesthesia with sevoflurane/N<sub>2</sub>O

than with sevoflurane alone (Einarsson *et al*), 335

- gas embolism during hysteroscopy: brief clinical report (Nishiyama and Hanaoka), 379

**Cardiac surgery, see under Anesthesia****Catecholamines**

- time of peritoneal cavity exposure influences postoperative glucose production (Schricker *et al*), 352

**Cells**

- prilocaine induces apoptosis in osteoblastic cells: laboratory report (Nakamura *et al*), 476

**Central nervous system**

- effects of ketamine and pentobarbital on norepinephrine release from the medial prefrontal cortex in rats: laboratory investigation (Kubota *et al*), 388

**Cerebrospinal fluid (CSF)**

- addition of opioids alters the density and spread of intrathecal local anesthetics? An *in vitro* study: laboratory report (Parlow *et al*), 66

**Cesarean section, see under Anesthesia, Obstetrical surgery****Cholecystectomy, see under Anesthesia, Laparoscopic surgery****Cisapride, see under Pharmacology****Cisatracurium, see under Neuromuscular relaxants****Clonidine, see under Sympathetic nervous system****Coagulation, see under Blood****Complications**

- see also Intubation, tracheal, Difficult; Vomiting, postoperative nausea and
- adverse events in ambulatory surgery. A comparison between elderly and younger patients (Chung *et al*), 309

**Alzheimer's disease**

- response to surgical stress in elderly patients and Alzheimer's disease (Kudoh *et al*), 247

**Amniotic fluid embolus**

- amniotic fluid embolism and isolated disseminated intravascular coagulation: clinical report (Davies), 456

**Anaphylaxis**

- latex anaphylaxis causing heart block: role of ranitidine: clinical report (Patterson and Milne), 776

**Angioneurotic edema**

- airway obstruction due to late-onset angioneurotic edema from angiotensin-converting enzyme inhibition: clinical report (Mchaourab *et al*), 975

**Aortic rupture**

- intraoperative rupture of an abdominal aortic aneurysm during an endovascular stent-graft procedure: clinical report (Moskowitz *et al*), 887

**Complications (continued)****Arrhythmias**

- ländiolol decreases a dysrhythmogenic dose of epinephrine in dogs during halothane anesthesia: laboratory investigation (Takahashi *et al*), 599
- transfer function analysis of the circulation in patients undergoing sevoflurane anesthesia (Fujiwara *et al*), 820

**Aspiration**

- gastroesophageal reflux during spontaneous respiration with the laryngeal mask airway: brief report (McCrory and McShane), 268
- water flow between the upper esophagus and pharynx for the LMA and COPA in fresh cadavers: brief report (Brimacombe and Keller), 1064

**Back pain**

- back pain and collapse associated with receding subarachnoid blockade: clinical report (Coleman *et al*), 464

**Brachial plexus injury**

- uncommon mechanism of brachial plexus injury. A case report: clinical report (Bhardwaj and Peng), 173

**Bradycardia**

- back pain and collapse associated with receding subarachnoid blockade: clinical report (Coleman *et al*), 464

**Brain tumour**

- general anesthesia with remifentanil for Cesarean section in a parturient with an acoustic neuroma: clinical report (Bédard *et al*), 576

**Bulimia nervosa**

- unrecognized bulimia nervosa: a potential cause of perioperative cardiac dysrhythmias: clinical report (Suri *et al*), 1048

**Burns**

- systemic thermal injury in anesthetized rabbits causes early pulmonary vascular injury that is not ablated by lazaroids: laboratory report (Miles *et al*), 142

**Cardiac arrest**

- perioperative resuscitation knowledge base (Porayko and Butler), 529

**Catheter misplacement/fixation**

- catheter entrapment by atrial suture during minimally invasive port-access cardiac surgery: brief report (Deneu *et al*), 983
- detection of subarachnoid and intravascular epidural catheter placement: clinical report (Tsui *et al*), 675

**Dural puncture**

- efficacy of three test doses to detect epidural catheter misplacement (Poblete *et al*), 34

- epidural blood patch. Resolving the controversies: review article (Duffy and Crosby), 878
- increased risk of unintentional dural puncture in night-time obstetric epidural anesthesia (Aya *et al*), 665
- second stage pushing correlates with headache after unintentional dural puncture in parturients (Angle *et al*), 861

**Dysphagia/Dysphonia**

- laryngo-pharyngeal complaints after use of the laryngeal mask airway (Figueroedo *et al*), 220

**Esophageal laceration**

- esophageal and tracheal distortion by the Esophageal-Tracheal Combitube - a cadaver study: laboratory investigation (Vézina *et al*), 393

**Gas embolism**

- gas embolism during hysteroscopy: brief clinical report (Nishiyama and Hanaoka), 379

**Gastrointestinal**

- complications digestives sévères après chirurgie cardiaque sous circulation extracorporelle (Aouifi *et al*), 114

**Hematoma**

- epidural hematoma following epidural catheter placement in a patient with chronic renal failure: brief report (Basta and Sloan), 271
- risk factors for post-carotid endarterectomy hematoma formation (Self *et al*), 635

**Hemorrhage**

- detection of retroperitoneal hemorrhage by transesophageal echocardiography during cardiac surgery: clinical report (Yamaura *et al*), 169

**Hypertension**

- combined diltiazem and lidocaine reduces cardiovascular responses to tracheal extubation and anesthesia emergence in hypertensive patients (Fujii *et al*), 952

**Hypoxemia**

- profound hypoxemia during treatment of low cardiac output after cardiopulmonary bypass: clinical report (Dennehy *et al*), 56

**Intravascular injections**

- reduced efficacy of simulated epidural test doses in sevoflurane-anesthetized adults (Takahashi and Tanaka), 433

**Myasthenia gravis**

- cisatracurium in a myasthenic patient undergoing thymectomy: clinical report (Baraka *et al*), 779

**Nerve damage**

- transient nerve damage following intubation for trans-sphenoidal hypophysectomy: clinical report (Evers *et al*), 1143

**Paraplegia**

- Strümpell's disease in a patient presenting for Cesarean section: clinical report (McTiernan and Haagenvik), 679

**Postoperative**

- early postoperative complications following neurosurgical procedures (Manninen *et al*), 7

**Pott's disease**

- Pott's disease with unstable cervical spine, retropharyngeal cold abscess and progressive airway obstruction: clinical report (Pollard and El-Beheiry), 772

**Pruritus**

- comparison of 0.25 mg and 0.1 mg intrathecal morphine for analgesia after Cesarean section (Yang *et al*), 856

**Pulmonary**

- management of an infant with diffuse bullous pulmonary lesions using high-frequency oscillatory ventilation: clinical report (Aubin *et al*), 970
- unilateral negative pressure pulmonary edema during anesthesia with a laryngeal mask airway: clinical report (Sullivan), 1053

**Regurgitation**

- gastroesophageal reflux during spontaneous respiration with the laryngeal mask airway: brief report (McCrory and McShane), 268
- water flow between the upper esophagus and pharynx for the LMA and COPA in fresh cadavers: brief report (Brimacombe and Keller), 1064

**Renal failure**

- total intravenous anesthesia with remifentanil, propofol and cisatracurium in end-stage renal failure: brief report (Dahaba *et al*), 696

**Respiratory failure**

- acute respiratory alkalosis associated with low minute ventilation in a patient with severe hypothyroidism: clinical anesthesia file (Lee and Levine), 185

**Rhabdomyolysis**

- rhabdomyolysis in association with Duchenne's muscular dystrophy: clinical report (Obata *et al*), 564

**Seizures**

- multicentre trial of ropivacaine  $7.5 \text{ mg} \cdot \text{ml}^{-1}$  vs bupivacaine  $5 \text{ mg} \cdot \text{ml}^{-1}$  for supra clavicular brachial plexus anesthesia (Vaghadia *et al*), 946

**Sore throat**

- laryngo-pharyngeal complaints after use of the laryngeal mask airway (Figueroedo *et al*), 220

**Stroke**

- idiopathic dilated cardiomyopathy presenting in pregnancy: clinical report (Chan and Ngan Kee), 1146

**Syncope**

- back pain and collapse associated with receding subarachnoid blockade: clinical report (Coleman *et al*), 464

**Tachycardia**

- combined diltiazem and lidocaine reduces cardiovascular responses to tracheal extubation and anesthesia emergence in hypertensive patients (Fujii *et al*), 952

**Tourniquet release**

- hyperventilation after tourniquet deflation prevents an increase in cerebral blood flow velocity (Kadoi *et al*), 259

**Tracheo-esophageal fistula**

- anesthesia for insertion of a Dumon stent in a patient with a large tracheo-esophageal fistula: clinical report (Inada *et al*), 372
- novel intubation technique for tracheoesophageal fistula in adults: clinical report (Au *et al*), 688

**Ventriculoperitoneal shunt**

- obstetrical anesthesia for a parturient with a ventriculoperitoneal shunt and third ventriculostomy: obstetric forum (Littleford *et al*), 1057

**Ventriculostomy**

- cisatracurium in a myasthenic patient undergoing

thymectomy: clinical report (Baraka *et al*), 779

- total intravenous anesthesia with remifentanil, propofol and cisatracurium in end-stage renal failure: brief report (Dahaba *et al*), 696

**Mivacurium**

- low dose mivacurium is less effective than succinylcholine in electroconvulsive therapy: brief report (Cheam *et al*), 49
- potency and time course of mivacurium block during sevoflurane, isoflurane and intravenous anesthesia (Lowry *et al*), 29

**Rocuronium**

- onset of neuromuscular block at the masseter and adductor pollicis muscles following rocuronium or succinylcholine (de Rossi *et al*), 1133

**Succinylcholine**

- low dose mivacurium is less effective than succinylcholine in electroconvulsive therapy: brief report (Cheam *et al*), 49
- onset of neuromuscular block at the masseter and adductor pollicis muscles following rocuronium or succinylcholine (de Rossi *et al*), 1133

**Vecuronium**

- sevoflurane exposure time and the neuromuscular blocking effect of vecuronium (Ahmed *et al*), 429

**Neurosurgery, see under Anesthesia****Nicardipine, see under Pharmacology****Nitric oxide, see Gases, non-anesthetic****Nitrous oxide, see under Anesthetics, gases****Noradrenaline, see under Central nervous system****Norepinephrine, see under Sympathetic nervous system****NSAIDs, see under Analgesics****O****Obstetrical surgery, see under Anesthesia****Ondansetron, see under Antiemetics****Ophthalmic surgery, see under Anesthesia****Opioids, see under Analgesics; Anesthetics, intravenous****Orthopedic surgery, see under Anesthesia****Otolaryngeal surgery, see under Anesthesia****Outpatient surgery, see Anesthesia, Ambulatory surgery****Oxygen****Free radicals**

- high dose propofol enhances red cell antioxidant capacity during CPB in humans (Ansley *et al*), 641
- hydroxyl radical formation during inhalation anesthesia in the reperfused working rat heart: laboratory report (Nakamura *et al*), 470

**Oxygen (continued)****Free radicals (continued)**

- isoflurane impairs antioxidant defence system in guinea pig kidney: laboratory investigation (Durak *et al*), 797

**Hypoxemia**

- profound hypoxemia during treatment of low cardiac output after cardiopulmonary bypass: clinical report (Dennehy *et al*), 56

**Monitoring transfer**

- evaluation of a mathematical model to predict intrapulmonary shunt non-invasively: laboratory report (Seear *et al*), 483

**Supply**

- oxygen concentrators - a primary oxygen supply source: equipment report (Friesen *et al*), 1185

**PACU, see Recovery, postoperative****Pain**

- *see also* Analgesia, Postoperative; Analgesics
- rheumatoid arthritis-affected temporomandibular joint pain analgesia by linear polarized near infrared irradiation: clinical report (Yokoyama and Oku), 683
- tourniquet inflation during arthroscopic knee ligament surgery does not increase postoperative pain (Hooper *et al*), 925

**Patient-physician relationship**

- communication skills for anesthesiologists: medical opinion (Smith and Shelly), 1082

**Pediatric surgery, see under Anesthesia****Pentobarbital, see under Anesthetics, intravenous****Pharmacokinetics**

- influence of hypoxia and hyperoxia on the kinetics of propofol emulsion: laboratory investigation (Yamamoto *et al*), 1150
- target controlled infusion of ketamine as analgesia for TIVA with propofol (Gray *et al*), 957
- volume kinetics of Ringer solution after surgery for hip fracture (Svensén *et al*), 133

**Pharmacology**

- *see also* Pharmacokinetics

**Amrinone**

- profound hypoxemia during treatment of low cardiac output after cardiopulmonary bypass: clinical report (Dennehy *et al*), 56

**Angiotensin-converting enzyme inhibitors**

- airway obstruction due to late-onset angioneurotic edema from angiotensin-converting enzyme inhibition: clinical report (Mchaourab *et al*), 975
- chronic angiotensin converting enzyme inhibition does not influence renal hemodynamic and

function during cardiac surgery (Licker *et al*), 626

**Antithrombin III**

- treatment of heparin resistance with Antithrombin III in cardiac surgery: clinical report (Kanbak), 581

**Cisapride**

- cisapride does not alter gastric volume or pH in patients undergoing ambulatory surgery: brief report (Lydon *et al*), 1181

**Diltiazem**

- combined diltiazem and lidocaine reduces cardiovascular responses to tracheal extubation and anesthesia emergence in hypertensive patients (Fujii *et al*), 952
- heart rate and blood pressure power spectral analysis during calcium channel blocker induced hypotension (Kimura *et al*), 1110

**Dobutamine**

- profound hypoxemia during treatment of low cardiac output after cardiopulmonary bypass: clinical report (Dennehy *et al*), 56

**Dolasetron**

- cost-effectiveness of prophylactic dolasetron or droperidol *vs* rescue therapy in the prevention of PONV in ambulatory gynecologic surgery patients (Frighetto *et al*), 536

**Droperidol**

- cost-effectiveness of prophylactic dolasetron or droperidol *vs* rescue therapy in the prevention of PONV in ambulatory gynecologic surgery patients (Frighetto *et al*), 536

**Epinephrine**

- landiolol decreases a dysrhythmogenic dose of epinephrine in dogs during halothane anesthesia: laboratory investigation (Takahashi *et al*), 599

**Felypressin**

- felypressin-induced reduction in coronary blood flow and myocardial tissue oxygen tension during anesthesia in dogs: laboratory investigation (Agata *et al*), 1070

**Landiolol (ONO-1101)**

- landiolol decreases a dysrhythmogenic dose of epinephrine in dogs during halothane anesthesia: laboratory investigation (Takahashi *et al*), 599

**Lidocaine**

- combined diltiazem and lidocaine reduces cardiovascular responses to tracheal extubation and anesthesia emergence in hypertensive patients (Fujii *et al*), 952

**Nicardipine**

- heart rate and blood pressure power spectral analysis during calcium channel blocker induced hypotension (Kimura *et al*), 1110

**Pharmacoeconomics**

- cost-effectiveness of prophylactic dolasetron or droperidol *vs* rescue therapy in the prevention of PONV in ambulatory gynecologic surgery patients (Frighetto *et al*), 536

**Prostaglandin**

- oral clonidine reduces the requirement of prostaglandin E1 for induced hypotension (Murakami *et al*), 1043

**Sodium nitroprusside**

- profound hypoxemia during treatment of low cardiac output after cardiopulmonary bypass: clinical report (Dennehy *et al*), 56

**Physician resources**

- Canadian Anesthesia Physician Resources: 1996 and beyond: survey report (Donen *et al*), 962

**Pierre Robin syndrome, see under Syndromes****Plants, *Mimosa pudica***

- inhalational and local anesthetics reduce tactile and thermal responses in *mimosa pudica*: laboratory investigation (Milne and Beamish), 287

**PONV, see Vomiting, postoperative nausea and****Positioning patients**

- unilateral negative pressure pulmonary edema during anesthesia with a laryngeal mask airway: clinical report (Sullivan), 1053

**Pott's disease, see under Complications****Pregnancy, see under Analgesia, Epidural; Anesthesia, Obstetrical surgery****Premedication, see under Anesthesia****Preoperative assessment, see Anesthesia, Preoperative assessment****Prilocaine, see under Anesthetics, local****Procaine, see under Anesthetics, local****Promethazine, see under Antiemetics****Propofol, see under Anesthetics, intravenous; Sedation****Prostaglandin, see under Pharmacology****Pruritus, see under Complications****Pyridostigmine, see Antagonists****Q****Quality of care**

- audit of ketoprofen prescribing after orthopedic and general surgery (Benhamou *et al*), 109

**R****Ramosetron, see under Antiemetics****Records, anesthesia**

- the anesthetic record: accuracy and completeness (Devitt *et al*), 122

**Recovery, postoperative**

- decreased respiratory depression during emergence from anesthesia with sevoflurane/N<sub>2</sub>O

than with sevoflurane alone (Einarsson *et al*), 335

- early postoperative complications following neurosurgical procedures (Manninen *et al*), 7
- midazolam premedication delays recovery from propofol-induced sevoflurane anesthesia in children 1-3 yr (Viitanen *et al*), 766
- patient flow in the Post Anesthesia Care Unit: an observational study (Tessler *et al*), 348
- sevoflurane-maintained anesthesia induced with propofol or sevoflurane in small children: induction and recovery characteristics (Viitanen *et al*), 21

**Effects of anesthesia**

- rats show unimpaired learning within minutes after recovery from single bolus propofol anesthesia: laboratory investigation (Engeland *et al*), 586

**Regional anesthesia, see under Anesthetic techniques****Regurgitation, see under Complications****Remifentanil, see under Analgesics****Resuscitation, see under Heart****Ringer's solution**

- volume kinetics of Ringer solution after surgery for hip fracture (Svensén *et al*), 133

**Rocuronium, see under Neuromuscular relaxants****Ropivacaine, see under Anesthetics, local****S****Same-day surgery, see Anesthesia, Ambulatory surgery****Sedation**

- clinical assessment of target-controlled infusion of propofol during monitored anesthesia care (Casati *et al*), 235

**Sepsis**

- contamination susceptibility of three needleless and one standard needle injection systems: equipment report (Ho and Ling), 290

**Sevoflurane, see under Anesthetics, volatile****Shivering**

- control of shivering under regional anesthesia in obstetric patients with tramadol (Chan *et al*), 253

**Shock**

- hemodynamic effects of medical antishock trousers during mechanical ventilation (Fellahi *et al*), 423

- systemic thermal injury in anesthetized rabbits causes early pulmonary vascular injury that is not ablated by lazaroids: laboratory report (Miles *et al*), 142

**Sodium nitroprusside, see under Pharmacology**

**Spinal anesthesia, *see under* Anesthetic techniques**  
**Stress, surgical**

- response to surgical stress in elderly patients and Alzheimer's disease (Kudoh *et al*), 247

**Stroke, *see under* Complications**

**Succinylcholine, *see under* Neuromuscular relaxants**

**Sufentanil, *see under* Analgesics**

**Surgery, *see different types under* Anesthesia**

**Sympathetic nervous system**

**$\alpha_2$ -adrenergic agonist**

- oral clonidine premedication reduces induction dose and prolongs awakening time from propofol nitrous oxide anesthesia: brief clinical report (Goyagi *et al*), 894

**$\beta$  receptors**

- ketamine inhibits agonist-induced cAMP accumulation increase in human airway smooth muscle cells: laboratory investigation (Hill *et al*), 1172

**Blood pressure**

- propofol, but not etomidate, reduces desflurane-mediated sympathetic activation in humans (Lopatka *et al*), 342

**Clonidine**

- oral clonidine premedication reduces induction dose and prolongs awakening time from propofol nitrous oxide anesthesia: brief clinical report (Goyagi *et al*), 894
- oral clonidine reduces the requirement of prostaglandin E1 for induced hypotension (Murakami *et al*), 1043

**Epinephrine**

- response to surgical stress in elderly patients and Alzheimer's disease (Kudoh *et al*), 247

**Heart rate**

- propofol, but not etomidate, reduces desflurane-mediated sympathetic activation in humans (Lopatka *et al*), 342

**Norepinephrine**

- response to surgical stress in elderly patients and Alzheimer's disease (Kudoh *et al*), 247

**Syndromes**

**Dandy-Walker/Pierre Robin**

- intubation via LMA in pediatric patients with difficult airways: brief clinical report (Selim *et al*), 891

**Duchenne's muscular dystrophy**

- rhabdomyolysis in association with Duchenne's muscular dystrophy: clinical report (Obata *et al*), 564

**Freeman-Sheldon**

- anesthesia for Freeman-Sheldon syndrome using a laryngeal mask airway: clinical report (Cruickshanks *et al*), 783

**T**

**Tachycardia, *see under* Complications**

**Temperature**

**Hyperthermia, malignant**

- factitious halothane detection during trigger-free anesthesia in a malignant hyperthermia susceptible patient: clinical report (Hawkes), 567

**Hypothermia**

- auditory brainstem evoked responses and temperature monitoring during pediatric cardiopulmonary bypass (Rodriguez *et al*), 832
- covering the head and face maintains intraoperative core temperature (Kamitani *et al*), 649

**Tenoxicam, *see under* Analgesics**

**Thiopental, *see under* Anesthetics, intravenous**

**Thoracic surgery, *see under* Anesthesia**

**TIVA, *see under* Anesthetics, intravenous**

**Tourniquets**

- tourniquet inflation during arthroscopic knee ligament surgery does not increase postoperative pain (Hooper *et al*), 925

**Tramadol, *see under* Analgesics**

**Transesophageal cardiography, *see under***

**Measurement techniques; Monitoring**

**Transplantation**

- anesthetic management of living liver donors: brief report (Choudhry *et al*), 788
- combined lung and liver transplantation in a girl with cystic fibrosis: clinical report (Zimmerman *et al*), 571

**2-chloroprocaine, *see under* Anesthetics, local**

**V**

**Vascular surgery, *see under* Anesthesia**

**Vecuronium, *see under* Neuromuscular relaxants**

**Vomiting, postoperative nausea and**

- *see also* Antiemetics

- comparison of ondansetron with ondansetron and dexamethasone in prevention of PONV in diagnostic laparoscopy (Rajeeva *et al*), 40
- comparison of patient-controlled analgesia (PCA) with tramadol or morphine (Pang *et al*), 1030
- cost-effectiveness of prophylactic dolasetron or droperidol *vs* rescue therapy in the prevention of PONV in ambulatory gynecologic surgery patients (Frighetto *et al*), 536
- ondansetron with propofol reduces the incidence of emesis in children following tonsillectomy (Barst *et al*), 359
- oral granisetron for strabismus surgery in children (Munro *et al*), 45
- post discharge nausea and vomiting after ambu-

- latory laparoscopy is not reduced by promethazine prophylaxis (Parlow *et al*), 719
- ramosetron *vs* granisetron for the prevention of postoperative nausea and vomiting after laparoscopic cholecystectomy: brief report (Fujii *et al*), 991

**W****Withdrawal of treatment**

- ethical and practical considerations of withdrawal of treatment in the Intensive Care Unit: medical ethics (Eschun *et al*), 497
